

JOSE ALBERTO JIMENEZ

IT MANAGER | Infrastructure • Cybersecurity • IT Operations • Regulated Environments

IT leader with 20+ years of experience ensuring high availability, secure connectivity, and reliable IT operations across regulated and mission-critical environments (medical devices manufacturing, pharmaceutical operations, and energy). Proven strength in IT infrastructure (servers, networks, virtualization, cloud/endpoints), IT service desk/ITSM, disaster recovery & backups, vendor/SLA management, budgeting, and cross-functional leadership. Bilingual English/Spanish; strong stakeholder communication and crisis management under operational pressure.

CORE COMPETENCIES

- IT Infrastructure Uptime: LAN/WLAN, switching, VLANs, VPN, ISP redundancy, end-user systems
- Virtualization & Data Center Ops: VMware/vSphere, server & storage support (NetApp/QNAP)
- Disaster Recovery / Business Continuity / Backups & Recovery
- Endpoint & Patch Management / Asset Lifecycle / Procurement & Inventory
- IT Service Desk & ITSM: incident management, SLAs, ticketing (ServiceNow, Track-It, Zendesk), 24/7 support coordination
- Cybersecurity & Compliance: security policies, risk control mindset; experience in FDA-regulated operations and validated/IQ-OQ documentation practices
- Vendor & Telecom Management: contract support, SLA oversight, cost optimization
- Leadership & Stakeholder Management: mentoring, cross-functional delivery, executive reporting

CERTIFICATIONS & TOOLS

Certifications: ITIL v4 | Network+ | A+ | CyberSec First Responder | BRMP | Six Sigma Green Belt | Certified Coach

Platforms/Tools: Microsoft 365 | ServiceNow (ITSM – Incident/Request; Admin/Configuration) | Power Automate (workflow automation) | MS Project | Visio | MS Exchange | VMware/vSphere | Track-It | Zendesk | Patch Manager | Take Control | SQL Server | Windows & Linux (Red Hat/Ubuntu)

PROFESSIONAL AFFILIATIONS

Toastmasters International — Puerto Rico Toastmasters Club (VP of Membership)

PROFESSIONAL EXPERIENCE

Luma Energy LLC., San Juan, PR

IT Business Relationship Manager | Jun 2024 – Present

- Lead IT/OT initiatives across multiple departments, aligning technology roadmaps with business objectives and operational continuity needs.
- Drive cross-functional program delivery: scope/timelines/deliverables, risk management, issue resolution, and executive-level reporting on performance and business impact.
- Manage procurement of hardware/software/services and vendor relationships to support enterprise programs; focus on cost control and service quality.
- Deliver measurable value: documented \$1.2M+ savings and improved operational efficiency through technology-enabled process improvements.

Selected outcomes

- Reduced IT/OT spending through resource allocation and vendor negotiations; improved delivery success through stakeholder management and conflict resolution.

Baxter, Jayuya, PR

IT Manager / MRM | Feb 2023 – Jun 2024

- Managed local IT operations in a regulated manufacturing environment: infrastructure reliability, end-user computing delivery, and project execution.
- Led internal/external resources; mentored team members, reviewed deliverables for quality, and ensured adherence to processes/standards.
- Owned IT budget commitments and forecasting; supported CapEx/OpEx investment planning for operational needs.
- Maintained local data center operations and availability/security of critical systems and data.
- Ensured compliance in regulated operations (FDA environment) and applied risk-control practices (hazard identification, risk evaluation, controls).

Avara Pharmaceutical Services, Arecibo, PR

IT Manager / Security Officer | Oct 2016 – Feb 2023

- Coordinated and managed implementations of IT hardware, software, and business systems to maintain compliance with cGMP requirements, lifecycle standards, and SOP controls in a highly regulated pharmaceutical environment.
- Supported and defended site audits and inspections from regulatory agencies including **FDA, DEA, ANVISA, and DIGEMID**, ensuring IT controls, documentation, and infrastructure practices met compliance expectations.

- Delivered incident management and service request support (local 24/7 + global) through service desk tools, restoring critical IT services quickly to reduce operational downtime.
- Served as site point of contact for IT infrastructure and managed service providers, planning maintenance activities to minimize downtime and ensure reliable connectivity.
- Supported critical infrastructure, including VMware/ESX virtual environments, servers, data storage systems (NetApp/QNAP), backup and recovery processes, printing services, and telecom dependencies.
- Strengthened security and standardization by enforcing IT policies, preventing unauthorized software, implementing Group Policies (GPOs), and producing user documentation and operating manuals.
- Led major network improvements, including wireless refresh initiatives, access point/controller upgrades, ISP redundancy, and structured change management to reduce risk and improve resiliency.
- Oversaw **physical site security operations**, managing the plant security contractor and security services agreement to help ensure effective facility protection and operational continuity.

Selected Outcomes

- Six Sigma Green Belt: led a network monitoring and management initiative that delivered **\$198K in savings** and contributed to site savings targets.
- Delivered IQ/OQ documentation for IT infrastructure equipment supporting regulated manufacturing operations.

Additional Experience

Doctors' Center Hospital – Manati, PR | (Jul 2010 – Oct 2016)

Johnson & Johnson – San Lorenzo, PR | PC/Desk Site Specialist (2007 – 2010)

Caribbean Restaurants Inc. (Burger King) – Cataño, PR | PC Specialist (2003 – 2007)

EDUCATION

MBA, Technology Management | University of Phoenix, Guaynabo, PR | 2011 (GPA 3.80)

BA, Information Systems | Universidad Metropolitana (UMET), Cupey, PR | 1999 (GPA 3.70)

Minor: Marketing | UMET | 1999
